

## FORMSTORM ENTERPRISE PRODUCT DEVELOPER PRICE GUIDE

Use the following developer product pricing and configuration information when ordering FormStorm™ products and run-time licenses from CharacTell.

### FormStorm™ Enterprise Developer's Program

The FormStorm Enterprise Developer's program is available to software developers that agree to private label FormStorm Enterprise and integrate it into their software products/systems. Participation in this program is subject to CharacTell Reseller and Branding Agreement. A one-time Private Label Fee is charged, plus applicable run-time license fee per each installation component.

### FormStorm Developer's Packages, Options, and Modules

The FormStorm is available in the following system packages and several optional modules to best meet your needs:

Packages	<b>FormStorm OMR/BC</b> – Ideally packaged and priced system for surveys and other OMR/barcode applications. <b>FormStorm For OCR</b> – Entry level FormStorm functionality focusing on machine print recognition applications. <b>FormStorm For ICR</b> – Entry level FormStorm functionality for machine print and handprint and recognition applications. <b>FormStorm Enterprise</b> - Complete FormStorm Enterprise system, including specialized technologies for unstructured forms. <b>FormStorm Invoices</b> – Complete and nearly automated system for accounts payable (incoming invoices) applications.
Options	<b>SemiForm</b> – Process documents with data types at varying locations (e.g. invoices, purchase orders, etc.). <b>AutoForm</b> – Interactive data verification and fast form template creation. <b>TableStorm</b> – Automated table analysis and line item reading. <b>BillForm</b> – Advanced module for fast and automated invoice processing.

### FormStorm Enterprise System Configuration

Each FormStorm system configuration contains all needed functionality and programming tools for its level. License for capture, processing, and data verification stations (stand-alone or networked) are sold separately. There are no per-page processing fees.
